

SOACP MODULE 14

Service API Design & Management Lab

As a continuation of course modules 12 and 13, this hands-on workshop allows attendees to apply the technologies, concepts, techniques and patterns previously covered in order to complete a set of lab exercises.

Participants are required to study case study backgrounds and carry out a series of exercises to solve a number of inter-related problems, with the ultimate goal of applying technologies and design patterns to design their own service API solutions.
