

# SOACP MODULE 11

## Microservice Architecture & Containerization

As a continuation of course modules 9 and 10, this hands-on workshop allows attendees to apply the concepts, processes, techniques, patterns and principles previously covered in order to complete a set of architectural and design exercises.

Participants are required to analyze case study backgrounds and carry out a series of exercises to solve a number of inter-related problems, with the goal of producing architectural solutions or fulfilling specific solution requirements.

For individual completion of this course as part of the Study Kit, a number of supplements are provided to help participants carry out exercises with guidance and numerous resource references.

Duration: 1 Day

Arcitura®  
CERTIFIED  
Microservice Architect

### CERTIFICATION

This course is part of an accreditation curriculum through which one or more official certifications can be achieved.
