

BDSCP MODULE 11

Advanced Big Data Architecture

Arcitura®
CERTIFIED
Big Data Architect

OVERVIEW

This course builds upon Module 10 by exploring advanced topics pertaining to Big Data solution platform architecture. In particular, different architectural layers that make up the Big Data solution platform are introduced and discussed, including those pertaining to storage, processing and security. Also covered are a number of design patterns and compound patterns generally employed when building enterprise Big Data solutions.

The following primary topics are covered:

- Enterprise Data Warehouses and Big Data
- Operational Data Store, Data Marts and Analytical Databases
- Big Data Solution Architectural Layers
- Big Data Architecture, Maintenance and Governance
- Big Data Security Architecture
- Series, Parallel, Appliance and Virtualization Approaches
- Big Data and Cloud-based Storage and Data Processing
- Canonical Data and Large-Scale Graph Processing
- Realtime Access Storage and Direct Data Access
- Analytical Sandbox and Confidential Data Storage
- Batch Data Processing and Dataset Denormalization
- Online Data Repository and Big Data Warehouse Architecture
- Operational Data Store and Indirect Data Access
- Integrated Access and Centralized Dataset Governance
- Event Stream Processing and Complex Event Processing
- Fan-in Ingress, Fan-out Ingress and High Velocity Realtime Processing
- Data Egress, Data Visualization and Data Utilization
- Data Wrangling, Data Processing and Data Analysis Processing
- Big Data Solution Design Patterns and Architectural Compound Patterns
- Lambda Architecture, Layers, Characteristics and Benefits

Duration: 1 Day

TRAINING + CERTIFICATION

This course is part of a training and accreditation program through which official certification can be achieved and for which official training and certification badges can be issued.

eLEARNING + PRINTED STUDY KITS

This course is available as part of a study kit that includes course materials and supplemental self-study materials. The study kit is available in full-color printed format and eLearning format. Both types of study kits include the contents listed below.

- Workbook
- Self-Study Guide
- Supplement
- Reference Posters
- Mind Map Poster
- Flashcards
- Audio Tutor Recordings
