

SOACP MODULE 15

Fundamental Service Governance & Project Delivery

Arcitura®
CERTIFIED
Service Governance
Specialist

OVERVIEW

Service project delivery methodologies are explained, including top-down and agile delivery. Governance technology and task types are established, along with service vitality triggers and processes. The basics of governing services, microservices and service-oriented solutions are then covered, including models and frameworks for addressing lifecycle management and individual service governance issues.

The following primary topics are covered:

- Service Project Delivery Methodologies (including top-down and agile delivery)
- Understanding Service Governance Programs, Models, and Controls
- Authoring Service Governance Precepts, Policies, and Regulations
- Identifying and Defining Organizational Roles in Relation to Governance Tasks
- Defining Service Governance Processes to Coordinate Precepts and Roles
- Service Vitality Triggers and Processes
- Establishing a Governance Program
- Governance Automation Tasks and Technology Types
- Common Service Governance Technology Products
- Basic Service Information Governance and Policy Governance
- Governing SOA Adoption Planning

Duration: 1 Day

TRAINING + CERTIFICATION

This course is part of a training and accreditation program through which official certification can be achieved and for which official training and certification badges can be issued.
